

Innovative * Smart * Sustainable

Welcome to the Nexten Family!

At Nexten Pro, we focus on innovative, smart and sustainable solutions. Our mission is to bring unique and innovative products to optimize your health and wellness. Our talented team of designers and product developers is constantly working to translate popular trends into innovative products for everyday life. Inspiration is drawn from the City of Toronto, where we are based, as well as arts, travel, culture, and the natural world around us. The process begins with sketches, extensive market research, prototyping, testing, and finally creation through sustainable practices. We take great pride not only in the outstanding quality of our products but in the environment in which they are made. Each Minimal item is made in ethically and socially responsible ways by our skilled artisans around the world.

Introducing Precision Coffee Grinder, Pour Over Coffee Stand with Filter

BUILT FOR TRUE COFFEE ENTHUSIASTS

Minimal Portable Hand Coffee Grinder

The robust high precision hand coffee grinder built with high performance stainless steel burr set. The grinder has refined the geometry and structure of the conical blade burr set to get the grind performance they were looking for and the particle distribution which works best with brewing fresh ground specialty beans. The collapsible lower body compact design makes it much easier for traveling, and you can make your own cup of coffee anytime and anywhere.

Natural Fiber Bento Box , Bento Box - V2, Bento Box +, Cutlery Set

Minimal Natural Fiber Products are made of discarded rice husk. It's environmentally friendly due to lower carbon foot-prints and it's also compostable naturally, making it from the earth and ultimately giving back to the earth. It separates us from those non-renewable resources. It's chip and crack resistant, and it's designed to last for years in both cafe and home environments.
